

## PROCEDURE FOR DIALOGUE WITH GRADUATES

11 NOVEMBER 2014

REVISED 26 JUNE 2015

### **Background**

All SCIENCE study programmes conduct a graduate survey every three years. University Administration conducts the actual survey and draws up a data report

### **Use**

Graduate surveys are conducted for the programme evaluation for the study programme concerned (see procedure for programme evaluation). The graduate surveys correspond to the timetable for SCIENCE's programme evaluations, so that the head of studies are able to base the programme evaluations on the most recent data possible.

### **Responsibility**

The study boards are responsible for assuring the quality of the study programmes. The head of studies is responsible for reflecting on the findings and incorporating them into the evaluation report.
